Unified Cloud Customer Relationship Management

SOCOM's CRM offers you the best of breed in organization and platform ownership without the on-going costs of all proprietary solutions

SOCOM CRM is an award-winning open source Customer Relationship Management (CRM) application. SOCOM CRM is functionally equivalent to the major product suites like Salesforce, Oracle, SAP and Microsoft Dynamics, SOCOM CRM is enterprise-ready and is displacing traditional vendors in large accounts. SOCOM CRM is available via SOCOM Cloud services. It is and always will be a completely open source product. SOCOM CRM is a fork of SuiteCRM, supported and extended by SOCOM SYSTEMS

Unified Cloud Customer Relationship Management

Leads, Opportunities, Sales & Intake

Model your sales pipeline quickly and easily. Free your sales people to do the high value selling you pay them to do, not the low value administration they hate. Produce beautifully templated Quotations, control your pricing strategies, make sure your Contract renewals are always serviced and make sure that every lead is followed up quickly and professionally. Easy to use with powerful impact.

Unified Cloud Customer Relationship Management

Portals, Case Management & More

Customer self-service is no longer a dream. It's a snap. Manage all your customer issues through an easy to setup and use website. With secure login controlled from SuiteCRM, your service teams will be instantly notified of customers issues and your customers will know as soon as their issues have been dealt with. Free your customer service team to do the hard yards of solving customer problems, not the hard slog of interpreting and recording the problem.

A New Cases (#7) 2013-07-25 15:02:08 New

I have created this case from the Joomla Portal.
